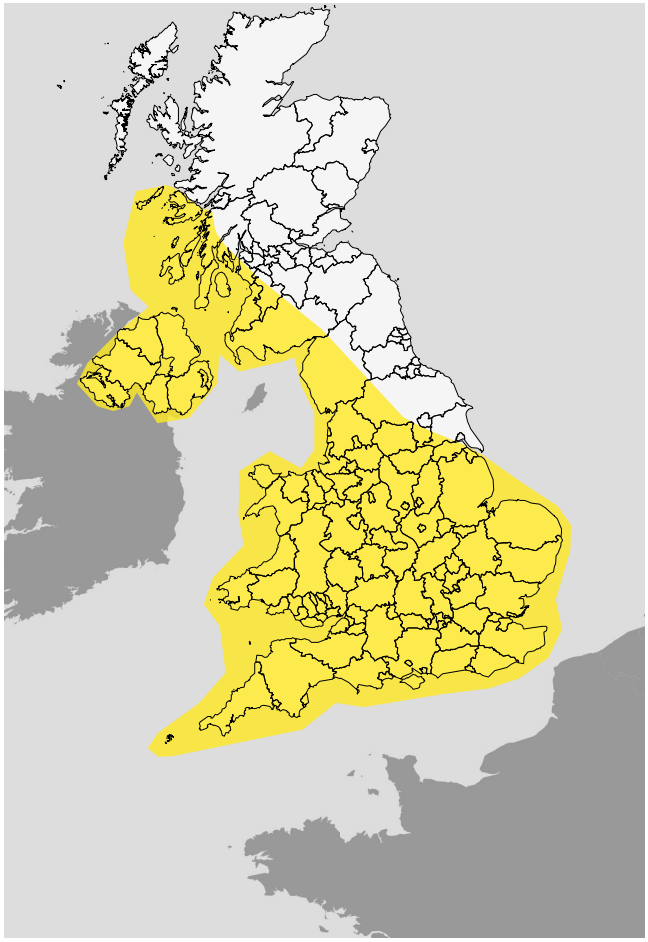
Yellow warning
Wind

Between
12:00 Sun 20 Feb 2022 and
13:00 Mon 21 Feb 2022



Further periods of very strong winds on Sunday and Monday, with possible disruption.

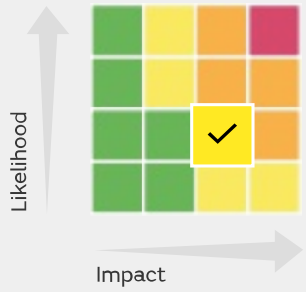
What to expect

- Some damage to buildings, such as tiles blown from roofs, could happen, along with trees/branches being brought down
- Road, rail, air and ferry services may be affected, with longer journey times and cancellations possible
- Some roads and bridges may close
- Power cuts may occur, with the potential to affect other services, such as mobile phone coverage
- Injuries and danger to life could occur from large waves and beach material being thrown onto sea fronts, coastal roads and properties

Further details

Winds are likely to strengthen across England and Wales on Sunday, as an increasingly squally band of rain moves southeastwards. Gusts of 55-60 mph are expected widely around south and west facing coasts, but possibly also briefly inland. There is a chance that a few exposed places could see gusts near 70 mph.

Strong gusts associated with blustery wintry showers will follow from the north. A swathe of very strong winds will reach Northern Ireland later Sunday evening in association with Storm Franklin.



✓ Low likelihood of medium impacts

Yellow warning
Wind

Between
12:00 Sun 20 Feb 2022 and
13:00 Mon 21 Feb 2022

Further Details (continued)

These very strong winds will spread to many other western, central and southern areas of the UK overnight and early Monday, with gusts widely 50-60 mph, whilst west facing coastal districts will see gusts of 65-75 mph and perhaps 80 mph briefly near north coast of Northern Ireland.

In the south these strong winds may hamper, or slow, ongoing recovery efforts in the wake of Storm Eunice.

Winds will ease steadily from the northwest during the remainder of Monday.

Reason for update

Previous wind warnings combined, now catering for possible higher impacts in south due to short spell of very strong winds later on Sunday.
